

"A Greater Work Than Miracles."

1. John 14:12.

1. What greater works did the disciples do, than Jesus did? If these "works" refer not to something else than miracles, then it is not true that they ever did greater works than Jesus did. They never perform greater miracles we know.

2. A work must be measured by what it accomplishes.

1. A work is great if it accomplishes much... SMALL if it accomplishes little.

3. A miracle has but one end and when that is accomplished its work is done.

1. Miracles never made a man better. They simply arrested attention and gave the truth its authority

4. What work within the possibility of christians is greater than miracles.
