

DANGERS CONFRONTING THE CHURCH.

1. The greatest danger is that OF DOING WITHOUT KNOWING.
 1. Knowledge lacking.
 2. My people are destroyed for lack of knowledge. Hosea 4:6.
 3. **This has caused:**
 1. An Amaurotic condition
 2. Decay of sight occurring without perceptible external change.
2. Often times we become enamored with ourselves missing the right way altogether.
3. We interpret statements in light of our own experiences.
 1. Our interpretations go often far afield from the thought at hand.

1. The first of these is the fact that the world is not a simple machine. It is a complex system of interacting parts, each of which has its own life and its own history. This is the first of the three main points of the book.

2. The second is the fact that the world is not a static system. It is a dynamic system, constantly changing and evolving. This is the second of the three main points of the book.

3. The third is the fact that the world is not a closed system. It is an open system, constantly interacting with its environment. This is the third of the three main points of the book.

4. The fourth is the fact that the world is not a linear system. It is a non-linear system, where small changes can have large effects. This is the fourth of the three main points of the book.

5. The fifth is the fact that the world is not a deterministic system. It is a probabilistic system, where the future is uncertain. This is the fifth of the three main points of the book.

6. The sixth is the fact that the world is not a rational system. It is an irrational system, where emotions and feelings play a role. This is the sixth of the three main points of the book.

7. The seventh is the fact that the world is not a predictable system. It is an unpredictable system, where the future is uncertain. This is the seventh of the three main points of the book.

8. The eighth is the fact that the world is not a controllable system. It is an uncontrollable system, where the future is uncertain. This is the eighth of the three main points of the book.

9. The ninth is the fact that the world is not a manageable system. It is an unmanageable system, where the future is uncertain. This is the ninth of the three main points of the book.

10. The tenth is the fact that the world is not a predictable system. It is an unpredictable system, where the future is uncertain. This is the tenth of the three main points of the book.
