

## NOTES ON DAVID AND GOLIATH

1. If the Israelites had waited until they could grow a giant as big as Goliath they still would be pitched in the Valle Elah.
2. We seem more interested in growing Goliaths than in developing Davids.
3. We are spending more time studying Goliath's armor and how to duplicate it instead of studying the secret of David's sling and stone.
4. We get all excited about
  1. How the business world does it.
  2. How the social world does it-
  3. How the entertainment world does it-
  4. In this areas we spending far more time in wondering how they do it than we spend studying how God does it.
