

1. WHERE IS THE MODERN DAY SOLOMON:

1. With guidelines to determine just how much televised bloodshed and terror is excessive?
2. How many Indians shot dead are "too many?"
3. How much brute force is "too much," and in what instances murder and assault are warranted?

2. OUR NATION'S FAILING MORAL HEALTH:

1. That people, especially young people, have been influenced by television no right thinking person would deny.
2. This is evidenced in the sellers of "goods" of all kinds - Whiskey, beer cigarettes ETC., who are willing to pay huge amounts for advertising on TV programs.

3. TELEVISION'S CLAIM:

1. They claim that they are televising shows that meet the demand of the people.
2. You might just as well bail out Nero's script men and producers on the grounds that they were only serving what was wanted by "standing-room-only crowds in the coliseum of his day.

4. WHAT TELIVISERS SHOULD CONSIDER:

1. Genesis 6:11; "the earth was filled with violence and observation made before the hand of God fell in cataclysmic censorship.
2. TV programs are doing their part in filling this world with violence and one day God is going to write "finis" to the whole sordid affair.
